Subject: By law amendment

Hi Peter

I just received this today. Is there any point spending my energy and time in fighting this?

They want relief from everything it appears, but height! They want a semi detached house in the back yard of their existing home but there is no room for another home let alone two! I can't understand how this is different from a "monster house" (yes, I get that it's not attached but same thing) and cannot believe the city will allow all these exemptions. And I'm assuming they are purchasing the laneway behind the existing house? Or just appropriating it?

I am adamantly opposed to this application and would like my opposition noted.

Will appreciate any help you can give.

Thanks Peter for all the work you do in our neighbourhood.

Kim
