My apologies for providing the incorrect address. It is indeed the 268 Victoria St property.

I didn't see Jason's email address. Is it possible for you to forward my comments?

Marianne Hunter

Ms. Hunter:

I would like you associate your comments with the application and the proposal. Unfortunately this cannot be done because there is no application for 500 Earl Street nor is this address assigned to any property at this time.

The nearest application is D14-032-2017 located at 268 Victoria Street. This property is at the south-west corner of Earl Street and Victoria Street. If this is the property you are commenting on, please confirm your comments with Jason Sands who is the Planner assigned to the application. His email is attached and his phone number is 613-546-4291 extension 3277.

You can find information on all current applications in the City at this web site:
<http://cityofkingston.maps.arcgis.com/apps/MapSeries/index.html?appid=343a968a042a4a3ba52cd398795c58e5>

All current applications are marked with a Blue Dot (make sure that Tab 1 is selected). If you click the Blue Dot a description of the application and contact information will be provided.

You can scan the map manually or use the address search feature in the upper left-hand corner of the map.

I hope this is useful information to you.

Sincerely,

Steven Chew

Subject: Single family homes

Mr. Stroud;

I live in Williamsville and regularly walk from Nelson and Mack Streets through parts of Sydenham district. Yesterday I noticed a sign on the lawn of 500 Earl street advising of a November meeting to discuss building another residence in the back yard.

This was a beautiful family home until the owners sold two years ago. Now there lawn chairs on the porch roof and if the request for a second building is approved it will never be returned to a family home again. I find it tragic that the stately homes are forever lost to families that might join the community.

I feel we, Kingstonians, are not accepting our responsibility in modelling appropriate social behaviour. We pack students in like pickles in a jar and then wonder why the students fail to demonstrate restraint. They have no need to. They answer to no one but other students.

I would like to see Sydenham and Williamsville district transition to a more blended community concept. That has to start with having homes that are appropriate for families. There are so many new build multi storied building projects waiting for the green light on Princess St in Williamsville that I don't see the rationale in eliminating a family home for increased rental space.

I send you these comments hoping you can see the value of blended communities.

Sincerely

Marianne Hunter
