

Coming to Breakwater Park

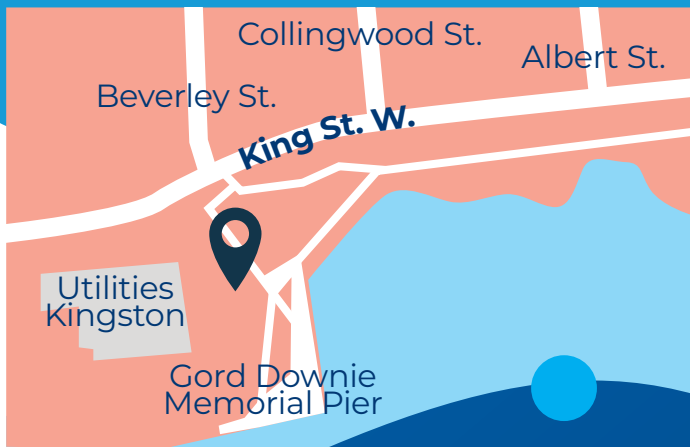

**The City of Kingston is installing
a new temporary washroom
building!**

The new building will feature:

-  one universal and one standard washroom
-  flush toilets and sinks
-  interior and exterior lighting

The washroom building is expected to be located in Breakwater Park for a minimum of 2 years, allowing the City to better understand the needs of park users.

What is a temporary washroom building?

The new facility will feature one universal and one standard washroom with flush toilets, urinals, sinks, hand dryers and lighting.

Where will it be located?

The building will be installed close to the Utilities Kingston King Street Water Treatment Plant, at the west end of the park.

Who can I contact if I have questions?
