

**City of Kingston
Report to Council
Report Number 19-012**

To:	Mayor and Members of Council
From:	Desiree Kennedy, Chief Financial Officer and City Treasurer
Resource Staff:	Lana Foulds, Manager of Financial Planning
Date of Meeting:	December 18, 2018
Subject:	Annual Amendment to Fees and Charges By-Law 2005-10

Executive Summary:

The *Municipal Act, 2001* authorizes a municipality to impose fees for services. Fees charged to users for various services are a primary source of municipal revenue, representing approximately 14% of the City's total municipal revenue budget. In that regard, the City's policy dictates that fees and charges be reviewed and adjusted annually by the Consumer Price Core Index of the third quarter of the prior year plus 1% for capital purposes, where feasible, or by an amount that will recover, at a minimum, respective service, administration and capital costs. Financial Services works with departments to review annually, as part of the budget process, all fees and charges to ensure that they are being applied in accordance with policy and strategic direction. An amendment to the by-law is recommended to Council to reflect the annual changes.

In most cases, services that have fees associated with them are also subsidized in various proportions by taxation revenues and therefore it is important that fee adjustments are reviewed on an annual basis and in conjunction with a review of respective service costs to ensure that the proportion of user fees and taxation subsidy is maintained. If fees are not adjusted appropriately, the result will be increased pressure on tax increases to subsidize the costs of providing the service.

Recommendation:

That the by-law attached as Exhibit A to Report Number 19-012 be presented to Council for all three readings to amend By-Law Number 2005-10, "A By-Law to Establish Fees and Charges to be Collected by the Corporation of the City of Kingston", as amended, in order to establish fees and charges for 2019.

Options/Discussion:

By-Law Number 2005-10, "A By-Law to Establish Fees and Charges to be Collected by the Corporation of the City of Kingston", as amended, provides authorization in a consolidated fashion for the purposes of establishing fees and charges in a fiscal year. The by-law allows for fees and charges to be adjusted annually, on January 1, as approved by Council, as follows:

- By the Consumer Price Core Index of the third quarter of the prior year plus 1% for capital purposes, where feasible;
- By a cumulative adjustment for past years where the fee is not adjusted by the Consumer Price Index in one year;
- By an amount that will recover, at a minimum, respective service, administration and capital costs, as well as costs for any other purpose in any amount permitted under applicable law.

In Canada, the Consumer Price Index (CPI) is the price index most commonly used to calculate inflation. Because of this, CPI has become the accepted measure for the rate of inflation in Canada. Despite the common use of the term CPI to mean a single measure of inflation, there is more than one way to use the CPI to calculate inflation. The Consumer Price Core Index is the escalator prescribed in this By-Law to be used as a proxy for inflation estimates. This indicator is based on the average of three specific measures of core inflation and removes from the calculations some of the goods and services which are the most volatile such as gasoline and fuel oil.

The By-Law provides for adjustments to fees for services, in comparison to the related costs of providing the respective service, which becomes an important strategy in maintaining appropriate levels of cost recovery. Services that have fees associated with them are, in most cases, also subsidized in various proportions by taxation revenues and, therefore, it is important that fee adjustments are reviewed on an annual basis and in conjunction with a review of respective service costs to ensure that the proportion of user fees and taxation subsidy is maintained. In addition to taxation and provincial grant revenues, fees charged to users for various services are a primary source of municipal revenue, representing approximately 14% of the City's total municipal revenue budget.

The Consumer Price Core Index average was 2% as at the end of the third quarter of 2018. The Bank of Canada projection for inflation over the next fiscal year and into the longer term is estimated to average 2%. Because of this, in many cases where fee adjustments have been made to account for inflation, fee increases represent up to 2% escalation, in addition to the 1% for capital purposes, in order to reflect an average inflationary adjustment required to cover total expected costs for the service for 2019, as permitted by the By-law.

Because the review and setting of fees is a process that is carried out in conjunction with other planning and budgeting activities, normally information with respect to proposed changes to fees and charges would be brought forward to Council during budget deliberations in the fall of the year. However, due to the timing of the election and the resulting delay in budget deliberations until the new year, the need to maintain consistent policy and practice and in order avoid the

loss of normal fee increases for the first quarter of 2019, it is necessary to address this By-law amendment now in order to have the authority in place to post and implement these fees and charges for January 1st. These fee adjustments have been considered as part of the funding for various programs in preparation of the 2019 operating budget.

For the majority of recommended fees, an increase of up to 2% escalation plus 1% for capital purposes has been applied, effective January 1, 2019. Some fees have been adjusted slightly more or less than this amount as a result of rounding in order to maintain even dollar amounts after tax for ease of cash handling or to maintain amounts that support the constraints of respective cash collection equipment.

For ease of review, the section references below provide further detail and explanation for fee changes detailed on Exhibit A to Report Number 19-012 where changes are other than the annual inflationary adjustments noted above. The majority of these changes reflect one of the following strategies:

- Maintaining fee levels where the charge is currently sufficient to cover the full cost of the good or service;
- Setting fees to reflect an appropriate market rate based on market analysis;
- Minimizing fee increases to encourage increased use of a good or service;
- Setting fees to support harmonization efforts or consistency of fees for similar services across different departments;
- Setting fees in accordance with Council-approved strategies
- Addition of new fees.

Other Fees & Charges:

Clerk's Department

- No fee change to Document Searches (pursuant to MFIPPA) and Affidavits for Non-Profit Housing Matters. Remains the same in accordance with relevant legislation.

Animal Registration

- No fee changes to encourage licensing activities.

Other Animal Related Fees

- No fee changes to most fees where current fees continue to be appropriate to recover respective costs.

Application for Noise Exemption

As part of a comprehensive review of the licensing and enforcement fees an activity based model was created to look at each fee type to determine the overall cost to the Corporation associated with each service. The activity based model determined that the City was not recovering costs related to noise by-law exemption requests. Fee increases for noise exemption applications (\$127.00 to \$300.00) and for re-applications (\$79.50 to \$188.00) will enable the City to increase its recovery of costs from 27% to approximately 65% for these services.

Business Licences

- No changes to selected Alarm Monitoring fees in accordance with Administrative Policies Committee Report AP-17-037 (November 9, 2017) which outlined proposed changes to alarm installation and alarm monitoring as regulated under the Business Licensing By-Law.
- Some fees increased slightly more or less than an inflationary measure for cash management purposes.

Solid Waste:

A number of fees in Solid Waste have remained the same or been adjusted by less than an inflationary measure where it will encourage proper disposal:

- Garbage - no change to Garbage Bag Tags.
- Source Separated Organics – Schools - no change to cost per student per year for collecting organics (elementary and secondary schools).
- Industrial, Commercial & Institutional Users of Municipal and Contracted Compost Sites - no change to Compostable Yard Waste and Brush (per tonne).

Disposal Fees

- No change to disposal fees for aerosol containers, fluorescent lamps, oil per litre, miscellaneous organics and petroleum distillates/light fuels as fees are sufficient to cover respective costs of disposal.

December 18, 2018

Page 13 of 13

Recycling

- Reduced the fee for recycling boxes to reflect a lower cost negotiated in a new contract. No change to Mobile Recycling Trailer Delivery and Collection as fee is sufficient to recover respective cost.
-

Fire and Rescue:**False Alarms, Unauthorized Burning and Non-Resident Responses**

- No changes as fees are currently aligned with Ontario Ministry of Transportation (MTO) rates.

Live Fire Training

- No changes as fees continue to recover respective costs.

Non-Live Fire Training

- No changes as fees continue to recover respective costs.

Rules for Determining Permit Fees:		
<ul style="list-style-type: none"> • Floor area of the proposed work is to be measured to the outer face of exterior walls (excluding residential attached garages) and to the centre line of party walls, firewalls or demising walls. • In the case of interior finishes, alterations or renovations, area of proposed work is the actual space receiving the work, e.g. tenant suite. • Mechanical penthouses and floors, mezzanines, lofts, habitable attics and interior balconies are to be included in all floor area calculations. • Except for interconnected floor spaces, no deductions are made for openings within the floor area (e.g. stairs, elevators, escalators, shafts, ducts, etc.). • Unfinished basements for single detached dwellings, semi-detached dwellings and townhouses are not included in the floor area. • Where Demolition of partitions or alterations to existing ceilings are part of an alteration or renovation Permit, no additional charge is applicable. • Corridors, lobbies, washrooms, lounges, etc. are to be included and classified according to the major occupancy for the floor area on which they are located. • The occupancy categories in this Schedule correspond with the major occupancy classifications in the Ontario Building Code. For multiple occupancy floor areas, the Permit fees for each of the applicable occupancy categories may be used, except where an occupancy category is less than 10% of the floor area.
