Planning Committee Meeting Number 05-2019 Agenda
Thursday February 7, 2019 at 6:30 p.m., City Hall, Council Chamber

Public Meeting Introduction

“NOTICE OF COLLECTION – Personal information collected as a result of this public hearing and on the forms provided at the back of the room is collected under the authority of the *Planning Act* and will be used to assist in making a decision on this matter. All names, addresses, opinions and comments may be collected and may form part of the minutes which will be available to the public. Questions regarding this collection should be forwarded to the Director of Planning and Development.

The purpose of public meetings is to present planning applications in a public forum as required by The Planning Act. Following presentations by the applicant, Committee members will be afforded an opportunity to ask questions for clarification or further information. The meeting will then be opened to the public for comments and questions. Interested persons are requested to give their name and address for recording in the minutes. There is also a sign in sheet for interested members of the public at the back of the room.

No decisions are made at public meetings concerning applications, unless otherwise noted. The public meeting is held to gather public opinion.

An exception to this rule is combined reports, which consolidates the Public Meeting & Comprehensive Reports. These applications are deemed by staff as straight forward and routine. This business practice has been in place for a number of years and is received by the applicants as efficient customer service and effective use of committee time. Please note that staff use discretion in determining if an application can be a **Combined Public Meeting/Comprehensive Report** to expedite the approval process.

Public meeting reports are provided to inform the public of all relevant information. Information gathered is then referred back to Planning and Development Staff for the preparation of a comprehensive report and recommendation to Planning Committee. This means that after the meeting tonight, staff will be considering the comments made by the public in their further review of the applications.

When this review is completed, a report will be prepared making a recommendation for action to this Committee. The recommendation is typically to approve (with conditions) or to deny. This Committee then makes a recommendation on the applications to City Council. **City Council has the final say on the applications from the City's perspective.**

Following Council decision notice will be circulated in accordance with the Planning Act. If a person or public body would otherwise have an ability to appeal the decision of the Council of the Corporation of the City of Kingston to the Local Planning Appeal Tribunal but the person or public body does not make oral submissions at a public meeting or make written submissions to the City of Kingston before the by-law is passed, the person or public body is not entitled to appeal the decision.

Zoning By-Law Amendment

The following is a Public Meeting report to the Planning Committee regarding an application for a zoning by-law amendment submitted by IBI Group Incorporated on behalf of 317 Developments Inc., with respect to two separate sites located at 168 Division Street and 227 Brock Street. This report describes the proposed application and includes an overview of the relevant policies and regulations that will be evaluated as part of a future comprehensive report.

The subject property at 168 Division Street is approximately 0.12 hectares in area with approximately 11 metres of frontage on Division Street and 48 metres of frontage on Garrett Street. The site is designated 'Main Street Commercial' in the City of Kingston Official Plan and is located in a 'C' Commercial Uses zone in Zoning By-Law Number 8499, as amended, and is developed with an existing two-storey, mixed-use building with parking at grade.

The applicant intends to remove the existing mixed-use, two-storey building and rezone the lands to facilitate the redevelopment of the site with a 6-storey mixed-use building with commercial and residential uses. The building is proposed to have 272 square metres of commercial area at grade with 35 residential units with a total of 100 bedrooms dispersed between floors 2 through 6. The commercial use has frontage onto both Division Street and Garrett Street.

The proposal includes 14 on-site vehicular parking spaces and 36 bicycle parking spaces located within the enclosed building near the western side yard and rear yard. On-site parking spaces are proposed at a ratio of 0.49 parking spaces per dwelling unit and a commercial parking ratio of 1 parking space per 150 square metres of gross leasable area. Access to the site is proposed from Garrett Street via a 6.2 metre wide covered access aisle. The regulated distance to off-site parking is proposed to be increased from 60 metres to 500 metres.

The lands at 227 Brock Street are currently developed with a 3.5-storey stone residential building containing 10 dwelling units. There are currently 10 parking spaces located in the rear yard. The applicant is proposing 5 off-site parking spaces located at 227 Brock Street to support the proposal at 168 Division Street. Through this zoning by-law amendment application, the property known municipally as 227 Brock Street is to be rezoned to reduce the residential parking ratio to 0.5 spaces per dwelling unit. The lands at 227 Brock Street are designated Central Business District and zoned C1-1 in By-Law Number 96-259.

1316 PRINCESS ST, KINGSTON K7M3E2	D14-001-2019	Zoning ByLaw Amendment (ZBA)	Received	The City purchased 1316 and 1318 Princess Street within the Affordable Housing Land Acquisition and Disposition Program. The purpose of the Program is to acquire strategic sites within the city and subsequently include affordable housing units within the disposal and development of the property. Following the rezoning of 1316 and 1318 Princess Street the City will dispose of the site through a competitive process at which point developers will propose a site plan, purchase price, and affordable housing contribution. Site Plan Control approval will be the responsibility of the selected developer(s). The two concept plans outlined in the Planning Rationale are intended to illustrate how the site could be developed as supported by the proposed zoning provisions. Both concepts envision a two building project with a 4 storey building (up to 64 units) on the south of the site and an multi-unit, mixed-use building (11 storeys plus mechanical penthouse; up to 172 units plus ground floor commercial space) fronting onto Princess Street. A severance would likely be pursued following the selection of the purchaser to locate the north and south buildings on individual properties. Council has previously approved the inclusion of unopened service road allowance on the east side of the property which could be used as a secondary access to the property via Hillendale Avenue. Concept 1 illustrates the use of the service road allowance for a secondary access to the site; however, the eventual developer as selected through the procurement process will determine if the secondary access is to be utilized.
