Options/Discussion:

In the last ten (10) years, Councils have approved a number of strategic plans that provided staff with guidance in a number of sectors. Most of these plans are being reviewed and updated every five (5) years. Over the last number of years, staff have changed services and policies, recruited talent, invested in infrastructure, built financial plans and built operational procedures in order to be able to meet the goals and objectives of Councils and approved plans.

Over time, different Councils have established various priorities and plans and staff have adjusted resources accordingly. With the upcoming Population, Employment & Housing Projections and the Council strategic planning sessions, staff will provide information on some major plans, initiatives and discuss options in preparation for the Council strategic planning sessions.
