New Motion

1. Moved by Councillor Boehme
Seconded by Mayor Paterson

Whereas the City of Kingston recently declared a climate emergency and now is the time to position the City of Kingston as an innovation and technological hub for climate strategies; and

Whereas the City of Kingston has the ability to punch far above its weight by helping to develop and encourage innovative local technology to help achieve our goals; and

Whereas other municipalities have found ways to allow people to voluntarily donate above and beyond their taxes towards positive climate efforts, through additional voluntary contributions;

Therefore Be It Resolved That Council request staff to research and recommend options to allow residents of the City of Kingston to donate additional funds to a Kingston Climate fund, where these funds would be used for local climate action initiatives and promoting research and innovative technology that could help us achieve our climate goals; and

That staff report back with recommendations about how the City could facilitate the creation of such a fund and setup a grant framework to encourage and position Kingston as an innovative technology climate harm reduction hub, which would allow Kingston to have an exponential positive impact on climate health worldwide far beyond our municipal borders.
