Please take due note of that as of resident and home owner at 40 Grenadier drive I am strongly against building new

recreation center at 15 Grenadier drive on the base of :

- 1 We do have lot of recreation centres in the our city and close proximity to proposed address (they rarely operating at full capacity)
- 2 Taxpayers money and government founds could be use better around the city in various projects (roads ,infrastructure)

I wish to express my appreciation for all your efforts to make best decision for the residents of our beautiful city .

Sincerely

Andrei Beliaev

City file number D11-034-2018

Our household strongly disagree with proposed Community Center.

We already have two very similar parks in the city - Outdoor Aqua Park & Artillery Park Aquatic Centre in 10 minutes proximity.

People like to spent time in the park and to be close to nature, building recreation centre will harm ecosystem and leave more carbon print for the future generation to deal with.
