Planning Committee Meeting Number 13-2019 Agenda
Thursday June 6, 2019 at 6:30 p.m., City Hall, Council Chamber

Public Meeting Introduction

“NOTICE OF COLLECTION – Personal information collected as a result of this public hearing and on the forms provided at the back of the room is collected under the authority of the *Planning Act* and will be used to assist in making a decision on this matter. All names, addresses, opinions and comments may be collected and may form part of the minutes which will be available to the public. Questions regarding this collection should be forwarded to the Director of Planning and Development.

The purpose of public meetings is to present planning applications in a public forum as required by The Planning Act. Following presentations by the applicant, Committee members will be afforded an opportunity to ask questions for clarification or further information. The meeting will then be opened to the public for comments and questions. Interested persons are requested to give their name and address for recording in the minutes. There is also a sign in sheet for interested members of the public at the back of the room.

No decisions are made at public meetings concerning applications, unless otherwise noted. The public meeting is held to gather public opinion.

An exception to this rule is combined reports, which consolidates the Public Meeting & Comprehensive Reports. These applications are deemed by staff as straight forward and routine. This business practice has been in place for a number of years and is received by the applicants as efficient customer service and effective use of committee time. Please note that staff use discretion in determining if an application can be a **Combined Public Meeting/Comprehensive Report** to expedite the approval process.

Public meeting reports are provided to inform the public of all relevant information. Information gathered is then referred back to Planning and Development Staff for the preparation of a comprehensive report and recommendation to Planning Committee. This means that after the meeting tonight, staff will be considering the comments made by the public in their further review of the applications.

When this review is completed, a report will be prepared making a recommendation for action to this Committee. The recommendation is typically to approve (with conditions) or to deny. This Committee then makes a recommendation on the applications to City Council. **City Council has the final say on the applications from the City's perspective.**

Following Council decision notice will be circulated in accordance with the Planning Act. If a person or public body would otherwise have an ability to appeal the decision of the Council of the Corporation of the City of Kingston to the Local Planning Appeal Tribunal but the person or public body does not make oral submissions at a public meeting or make written submissions to the City of Kingston before the by-law is passed, the person or public body is not entitled to appeal the decision.

Official Plan & Zoning By-Law Amendment

The following is a Public Meeting report to the Planning Committee regarding an application for an Official Plan and zoning by-law amendment submitted by BPE Development Inc. and Fotenn Consultants on behalf of BPE Development Inc., with respect to the subject site located at 2285 Battersea Road, 2311 Battersea Road and Kingston Con 6 PT Lot 33 RP; 13R-15799 Part 1. This report describes the proposed application and includes an overview of the relevant policies and regulations that will be evaluated as part of a future comprehensive report.

The applicant is proposing to redevelop 3 separately conveyable parcels located at the northwest corner of the Unity Road/Battersea Road intersection. The lands subject to the proposed development are addressed municipally as 2285 Battersea Road, 2311 Battersea Road and a landlocked parcel north of these parcels. Cumulatively, the total land area is approximately 13.7 hectares with approximately 295 metres of road frontage on Battersea Road and approximately 115 metres of road frontage on Unity Road.

The applicant is proposing to adaptively reuse the existing single-detached dwelling and redevelop the subject lands to accommodate a 27-suite boutique inn, spa, gift shop, restaurant, corporate event venue and 40 rental cabins distributed across the lands. The site is to include agricultural land, vineyards, gardens, a fruit and vegetable stand, craft brewery and craft winery.

The proposed development is to be constructed in 3 phases.

Phase 1 is to consist of the main inn building, spa, restaurant, agricultural land, 3 cabins and corporate event venue. The development associated with Phase 1 is to occur primarily around the existing single-detached dwelling on the southern portion of the lands.

Phase 2 is to consist of 15 cabins, which are to be primarily located in the mid portion of the lands on the parcel addressed municipally as 2311 Battersea Road.

Phase 3 is to consist of 25 cabins and an agricultural building. The cabins are to be primarily located on the northernmost portion of the site, landlocked parcel located directly west of 2329–2359 Battersea Road. The proposed agricultural storage building is located in the most northwest corner of the subject lands.

The subject lands are designated 'Rural Lands' in the City of Kingston Official Plan and are located within a General Agricultural 'A2' and Restricted Agricultural 'A1' zone within Zoning By-Law Number 76-26, as amended. The applicant is proposing to re-designate the lands to 'Rural Commercial' within the Official Plan and rezone the lands

Zoning By-Law Amendment

The following is a Public Meeting report to the Planning Committee regarding an application for a zoning by-law amendment submitted by FoTenn Consultants Inc. on behalf of Judith Carlile, with respect to the subject site located at 235 Brock Street. This report describes the proposed application and includes an overview of the relevant policies and regulations that will be evaluated as part of a future comprehensive report.

The applicant is proposing to convert an existing mixed commercial/residential use building to a 5 unit dwelling. The proposed conversion is not going to require any additions or exterior alterations to an existing 4-storey building. The commercial use was a sleep clinic located on the ground floor and second floor of the building. Presently, the applicant is in the process of obtaining Site Plan Control approval (File Number D11-005-2019) to convert the second floor to a residential use. There are existing residential units on the third and fourth floors of the building. The application is to facilitate the conversion of the main floor and basement into dwelling units by introducing a residential use to the zone. The applicant is proposing that the building contain the following:

- One 1 bedroom unit;
- One 2 bedroom unit;
- One 3 bedroom unit; and
- Two 4 bedroom units.

In order to accommodate this conversion, the applicant is also requesting a modification to the following zone regulations:

- a) A reduction in required parking from 5 parking spaces to 4 parking spaces;
- b) A reduction in parking space width from 2.75 metres to 2.60 metres;
- c) A reduction in Type B accessible parking dimensions from 2.7 metres x 6.0 metres to 2.6 metres x 5.8 metres;
- d) Exemption from requiring a Type A (van accessible) accessible parking space;
- e) Notwithstanding Section 7.2.4(a) to the contrary a dwelling unit is permitted on the main floor;
- f) Increase in maximum building permitted building height to recognize the existing building height (4-storeys); and
- g) Recognizing a shared ingress and egress for off street parking.

Official Plan & Zoning By-Law Amendment

The following is a Public Meeting report to the Planning Committee regarding a City-initiated application for an Official Plan and zoning by-law amendment regarding residential parking and driveways. This report describes the proposed application and includes an overview of the relevant policies and regulations applicable to the proposed amendments.

The proposed amendments are intended to provide additional opportunities for off-street parking in residential areas, with limitations, while at the same time to balance the need for maintaining the streetscape and neighbourhood character. In accordance with Provincial direction, the City is in the process of amending its Official Plan and the zoning by-laws to establish “as-of-right” permissions for second residential units within single-detached dwellings, semi-detached dwellings, linked and row houses as well as in ancillary buildings. These amendments would increase permissions for second residential units throughout the City without the need for planning approvals, except in areas of potential or known servicing constraints. Second residential units are an important tool in contributing to the supply of affordable housing. A comprehensive report regarding the proposed Official Plan and the zoning by-law amendments regarding second residential units is being presented on the same night as this report. With the broadening of permissions to establish second residential units, it is expected that on-street parking spaces in residential areas will be used more frequently and for longer durations than permitted by the Parking By-Law.

Parking in a driveway in a portion of a front yard where the driveway does not lead to a parking space in a garage, side or rear yard is currently not permitted. Enforcement relating to such by-law infractions is on a complaint basis. The amendments presented in this report propose to broaden permissions to allow parking within a driveway, with limitations on the size of the driveway, and speak to the location and configuration of residential off-street parking spaces.

The proposed amendments are supportive of additional residential units which contribute to the supply of affordable housing. By allowing additional opportunities for parking spaces to be located on-site, it is anticipated that the proposed changes would help reduce overflow of residential parking onto the streets which creates operational challenges. The proposed amendments would also provide an opportunity to establish off-street parking spaces in existing situations where residential properties do not have access to a garage, side or rear yard. Further, the proposed amendments are anticipated to contribute to enhanced accessibility with parking spaces potentially being able to be located closer to the main entrance of a dwelling.

Planning Committee Meeting Number 13-2019 Agenda
Thursday June 6, 2019 at 6:30 p.m., City Hall, Council Chamber

The proposed Official Plan amendment is intended to clarify that new and existing low density residential development with at grade access will not have front yard parking except for parking in a permitted driveway in a portion of the front yard as per the provisions of the zoning by-law (policies 4.6.59 and 4.6.60). The restriction that parking in a driveway is only permitted where the driveway leads to a permitted parking space in a garage, side or rear yard is proposed to be removed. The proposed zoning by-law amendment is intended to implement the above-noted Official Plan amendment, and also amend provisions related to permitted driveway widths and the parking of recreational vehicles, watercraft and trailers in residential zones. Regulating the temporary parking and storage of recreational vehicles, watercraft and trailers in residential zones on a seasonal basis has been proposed in the first draft of the new City-wide Zoning By-Law. However, recognizing that the implementation of the new City-wide Zoning By-Law is anticipated to take an extended period of time, amendments regarding the parking and storage of recreational vehicles, watercraft and trailers is being undertaken in advance of the new City-wide Zoning By-Law. The proposed zoning by-law amendment affects Zoning By-Law Numbers 8499, 96-259, 97-102, 76-26, 32-74, 3077 and 8402.

Public Meeting
Held Pursuant to the Planning Act
6:30 p.m.
Official Plan & Zoning By-Law Amendment

The following is a Public Meeting and comprehensive report recommending approval to the Planning Committee regarding City-initiated applications for Official Plan and zoning by-law amendments. The purpose of the proposed amendments are to implement Provincial legislation and policies through broadening second residential unit permissions across the City and to introduce policies that will ensure new residential units in specific areas of potential or known servicing constraints are evaluated on the basis of the City's overall ability to support such units while protecting the public interest. The proposed amendments apply to second residential units located within a principal dwelling or within an accessory structure that occupies the same lot as a principal dwelling.

The first Public Meeting was held on July 5, 2018. Since the Public Meeting, staff have made revisions to the City-initiated amendments to the Official Plan and the zoning by-laws in response to Public Meeting comments, technical review comments and feedback received through an online survey held from June 27 to July 13, 2018. Staff also consulted with the Planning Advisory Working Group on June 4, 2018. An additional technical review process and online public commenting period to receive public feedback and questions on the revised amendments occurred from January 21, 2019 to February 4, 2019. Staff have since made additional revisions based on the recent comments received. This report describes the revised City-initiated applications and includes an overview of the relevant policies and regulations that apply to the applications. The proposal is consistent with the applicable policies of the Provincial Policy Statement and complies with the general intent of the City of Kingston Official Plan.

190 RESOURCE RD, KINGSTON	D14-043-2017	Zoning ByLaw Amendment (ZBA)	In Technical Review	<p>A Zoning By-law Amendment has been submitted by IBI Group with respect to the lands known municipally as 190 and 198 Resource Road. The lands are located within the Cataraqui Estates Business Park. The property is designated General Industrial in the City of Kingston Official Plan and is currently zoned 'M1-13' in Zoning By-law Number 76-26, as amended.</p> <p>Cumulatively, the lands are approximately 1.6 hectares in area with approximately 470 metres of road frontage on Resource Road and Centennial Drive. The site is currently vacant and heavily treed. The applicant is proposing to construct three (3) buildings which will accommodate a range of employment uses, including business park uses and professional office space.</p> <p>To facilitate the proposed development plan, the applicant is seeking relief to the existing site-specific zoning to ensure the proposed business and professional office uses align and are complementary to the uses contained within the broader Business Park. Specifically, the applicant is proposing that a maximum of 50% of the gross floor area of all buildings be permitted for business and professional offices. Further, relief is requested to permit on-site parking be located a minimum of 3.0 metres from any street line.</p> <p>The proposed development is subject to Site Plan Control (D11-039-2017), which is being processed concurrently with the Zoning By-law Amendment application.</p>	Lindsay Sthamann	lsthmann@cityofkingston.ca

216 ONTARIO ST, KINGSTON K7L 2Z3	D14-003-2019	Zoning ByLaw Amendment (ZBA)	In Technical Review	<p>City-initiated zoning by-law amendment in response to a Council motion from December 19, 2017 which directed staff to advise Council on the feasibility of developing a planning framework that is specific to addressing infill development pressures in the Reddendale neighbourhood, to ensure that infill development is context appropriate and compatible with the physical character of the existing built form. The proposed zoning by-law amendment is also intended to implement Official Plan policies related to the ribbon of life and Environmental Protection Areas. The Reddendale neighbourhood is generally bounded by Front Road to the north, Sunny Acres Road to the east and Lake Ontario to the south and west. The proposed zoning by-law amendment will replace the special Residential Type (R1-3) Zone with new special R1-X Zones and an EPA-X Zone to update the residential zoning standards applied within the Reddendale neighbourhood. The zoning by-law amendment is proposed to address specific provisions such as minimum yard widths, maximum height, maximum floor space index, maximum lot coverage, minimum landscaped open space and minimum setback from the normal high-water mark of Lake Ontario.</p>	Sukriti Agarwal	sagarwal@cityofkingston.ca

1381 NEWPORT AVE, KINGSTON	D14-006-2019	Zoning ByLaw Amendment (ZBA)	In Technical Review	<p>This Zoning By-law Amendment has been submitted by CECCE and Paquette Planning on behalf of the French Catholic and French Public School Boards. The amendment proposes to increase the maximum height in the Institutional Zone, reduce the number of parking spaces on site through reduced ratios, and proposes that some parking be located off site on the adjacent park block. The amendments have been submitted to facilitate the construction of a combined secondary school that would house both the French Catholic and French Public high schools, a theatre, daycare, and cultural centre.</p> <p>The site is designated residential, is within Special Policy Area 58 in the Official Plan, and is zoned the Institutional (I) Zone in Zoning By-law 76-26. The block of land for the school was recently created as part of Phase 1 of the West Village Subdivision (700 Gardiners Road - Old Nortel Site). The lands currently have frontage onto a small portion of Wheathil Street, but will eventually have full frontage onto Newport Avenue and Wheathill Street with the approval of Phase 3 of the West Village Subdivision (currently submitted and under review). There is an active monitoring program for a Record of Site Condition underway that involves the subject parcel, which is being reviewed as part of the Site Plan Control Application D11-006-2019.</p>	James Bar	jbar@cityofkingston.ca

235 BROCK ST, KINGSTON K7L1S3	D14-007-2019	Zoning ByLaw Amendment (ZBA)	In Technical Review	<p>The applicant is proposing to convert the existing mixed-use building into a multi-unit residential dwelling with five residential units. The basement, ground floor, and second floor will be converted to residential uses. The existing residential uses on the third and fourth floors will be maintained. The conversion will result in one residential unit on each floor of the building, including the basement. The building will contain one 1-bedroom unit, one 2-bedroom unit, one 3-bedroom unit, and two 4-bedroom units. No exterior alterations to the existing building are proposed except for maintenance and to ensure compliance with the Ontario Building Code with respect to an existing rear fire escape. The proposed maintenance and code compliance is anticipated to be undertaken separate from the zoning by-law amendment application. The front half of the basement, containing space utilized by the former sleep clinic, will be converted to a one-bedroom residential unit. Much of the remaining rear half of the basement will be converted into a common amenity area which is accessible to all residents. This area will also include existing storage areas, utility rooms, and laundry facilities. The basement amenity area will measure 32 square metres in area. The existing outdoor amenity area measures 13.6 square metres in area, for a total of 45.6 square metres of amenity area.</p>	Jason Budd	jbudd@cityofkingston.ca

216 ONTARIO ST, KINGSTON K7L 2Z3	D35-004-2019	OPA, ZBA, DPC, DPS	In Technical Review	The proposed amendments are intended to provide additional opportunities for off-street parking in residential areas, with limitations, while at the same time balance the need for maintaining the streetscape and neighbourhood character. The restriction that parking in a driveway is only permitted where the driveway leads to a permitted parking space in a garage, side or rear yard is proposed to be removed. The proposed Official Plan Amendment is intended to clarify that both new and existing low density residential development with at grade access will not have front yard parking except for parking in a permitted driveway as per the provisions of the zoning by-law. The proposed amendment to the zoning by-laws is intended to implement the above-noted amendment to the Official Plan, add or amend provisions related to driveway widths, and amend provisions related to the parking and storage of recreational vehicles, watercraft and trailers in residential zones.
