**Council Meeting Number 23-2021
Addendum Number 2
Tuesday, October 19, 2021**

Motions of Congratulations, Recognition, Sympathy, Condolences and Speedy Recovery

The consent of Council is requested for the **addition** of Motion of Congratulations, Recognition, Sympathy, Condolences and Speedy Recovery Number 1.

1. Moved by Mayor Paterson

Seconded by Deputy Mayor Oosterhof

That the sincere condolences of Kingston City Council be extended to the family and friends of Glenn Leeman who passed away on October 13, 2021 at the age of 71. Glenn was a former employee in the Public Works Department and retired in 2016. Glenn was an organ transplant recipient and cherished the additional years of life he received in which he enjoyed hunting and fishing with his grandchildren and friends. Our thoughts are with Glenn's family and friends during this difficult time.

Communications

The consent of Council is requested for the **addition** of Communication Numbers 23-914, 23-915, 23-916, 23-917, 23-927 and 23-928.

- 23-914 Correspondence received from Elizabeth Macdonnell with respect to Sleeping Cabins, dated October 17, 2021.

(Distributed to all members of Council on October 18, 2021)

(Attached to Addendum Number 2 as schedule page 1)

- 23-915 Correspondence received from John Geddes with respect to Homeless support, dated October 17, 2021.

(Distributed to all members of Council on October 18, 2021)

(Attached to Addendum Number 2 as schedule page 2)

- 23-916 Correspondence received from Dawn Clarke with respect to Sleeping Cabins, dated October 17, 2021.

To: City Clerk <CityClerk@cityofkingston.ca>
Subject: Homeless support

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello

I have read with interest that the City is looking at motel rooms for homeless individuals and applaud your proactive efforts as I know that the facilities at the Integrated Care Hub are strained beyond capacity.

I also am aware of the Our Livable Solutions initiative to provide sleeping cabins for people without homes and I would like to add my agreement to that initiative. I understand that there will be some discussion and a motion to support that initiative on Tuesday October 19 and I would urge you to notify all members of Kingston City Council of my support for that motion.

John A Geddes MD

COMMUNICATION

No: 23-916

From: **Steve Cudd**
 Date: Sun., Oct. 17, 2021, 8:51 p.m.
 Subject: Urgent Information prior to Tuesday Council Meeting.
 To: <mayor@cityofkingston.ca>
 Cc: Ridge, Gregory

My name is Steve Cudd. I am a qualified and skilled Management Consultant as it relates to the NAFTA AGREEMENT. Since 1992 I have operated from Miami Florida while my wife ran our operations here in Kingston. From 1978 when my wife and I married to October 12 2007 when my wife died. During that time we have bought and paid taxes on over 20 residential properties and 42 thousand square feet of commercial property including The Atrium at Days and Golden Mile. And dozens of small businesses. In other words I am invested in this city and write this letter from the perspective of a long term high taxpayer.

From the time of my wife's death to now I have been defrauded of 3 homes, 2 in the west end of Kingston and one in Peterborough plus cash adding to 5.3 million. I arrived in Canada for the first time in 11 years October 30 2018. The individuals who defrauded me also stole my identity and rendered me homeless.

I chose to do what I have been trained to do. INFILTRATE, RESEARCH AND REPORT. THEN PLAN SOLUTIONS AND EXECUTE AND OPERATE. I have lived in dozens of facilities like the hub from here to Nanimo and most cities in between.

My research consists of 8 questions to over 300 souls. Then developing the common denominators. The rest of my research is based on what I see trying to stay safe sanitary and secure. Which is the point of this letter. To inform you with proper information before you make a decision involving our tax dollars when they are used for deliverables involving our safety, sanitary and security. A decision you are being asked to make Tuesday evening. The Management of 661 Montreal Street is making their presentation, if I were in Council's shoes I would listen to their request but delay any decisions. The following is my executive summary.

Operations

There are 4 independent operations

1) down stairs overdose crisis center.
 Seems to be meeting its objective (saving lives)
 No body has died on the property so far

2) The Dropin Center.

Without question the most mismanaged operation I've seen. There are no rules. Bad behavior is rewarded. Those who attempt to follow the rules are targeted by management. There is no schedule therefore there is no order. There is no such thing as fire lanes. Doors are locked from the inside. There is no volunteer operation and tax money is absolutely being flushed down the drain especially in the areas of laundry, food preparation and clean up. The operation is over managed and under manned. It

is breaking every fire code and sanitary code. There are no rules. You can't play a hockey game without a rule book. You sure can't run a shelter without one.

3) 3rd floor 25 beds

This is not a bedroom it is a triage for the day's overdoses usually about 6 beds of 25 are taken this way and about 3 are Management relatives leaving about 15 beds any given night meanwhile taxpayers and you are being told 25 are available each night. This is not secure I was physically assaulted by a known fugitive. I am severely injured and so far Management has chosen to obstruct justice by lying to the police force about whether it happened. That is being fixed today as the criminal investigation unit is coming to my hotel today.

4) Outside within property limits. This is an effective operation with a clear chain of command. They normally run smoothly until Management gets involved. The 5 managers seem to encourage Kaos. Bad behavior is rewarded.

Here's the good news this can be fixed before you fund. We just have to address the deliverables and hold Management 's feet to the fire. Figure out who is leading who is following and who is in the way. This is a time to clean the bath water not throw the baby out.

The individual that is doing your report (in four months he has only been on site for two hours). We call these kind of consultants in our world, "consultants who steal your watch and offer to tell you the time". I would be happy to provide more information my phone number is 613 583 6823.

The people ccd are

- 1) Greg Ridge - Mpp Ian Roger's assistant
- 2) Raciél Sanchez- Director of Operations TLC LEGACY TRUST Ray runs operations from Miami.
- 3) Thelma Cudd- my mom the "T" . TLC is an acronym for Thelma my alive mom, Lenard my deceased dad and Colleen my wife also deceased.
- 4) Lynette Ventura-Director of Finance TLC LEGACY TRUST, Harvard Economics Graduate operating from San Juan Puerto Rico.

Mr. Mayor this is urgent but like all failures, a learning opportunity. And fixable.

Like Winston Churchill said

"This is not the end but it may be the beginning of the end"

"And we must always remember we must never ,ever quit"

Yours Truly
Steve Cudd

The banner features the Waste Reduction Week in Canada logo (a recycling symbol with a red maple leaf and 'EST. 2001') and a 'CELEBRATING 20 YEARS' badge. Below these is the text 'WASTE REDUCTION WEEK IN CANADA' and 'OCTOBER 18 - 24, 2021'. A central graphic shows 'THEN' with an arrow pointing to 'NOW', which has an arrow pointing to a circular arrow icon labeled 'FUTURE'. The main heading reads 'Welcome to Waste Reduction Week in Canada's 20th Anniversary!'. The body text describes the event's history and goals, mentioning 'circular economies, resource efficiency, and waste reduction' and 'program themes'.

WASTE REDUCTION WEEK IN CANADA
OCTOBER 18 - 24, 2021

THEN → NOW → FUTURE

Welcome to Waste Reduction Week in Canada's 20th Anniversary!

Waste Reduction Week in Canada has been celebrated during the third week in October every year since 2001. This year will be our most impactful campaign yet as we look back at our achievements over the past two decades and look forward to what we can accomplish together.

This week we invite Canadians to join us in celebrating and recognizing the achievements we have made together in creating circular economies, resource efficiency, and waste reduction. Each day, learn about and take action on one of our [program themes](#). We will also be launching exciting new resources and announcing new programs. Stay tuned!

Waste Reduction Week in Canada has evolved significantly in the last two decades. We recognize that waste reduction and recycling is one part of the

solution in creating circular economies for our low carbon, resource efficient future.

We are thrilled to welcome back previous partners and are joined by several new supporters. Without the support of these organizations we would not be able to activate and deliver the Waste Reduction Week program. We are excited to share how each of our partners are supporting and activating circular economies in their respective sectors.

Let's Get Started! Circular Economy Monday

Waste Reduction Week in Canada would like to recognize The Beer Store for supporting the campaign as the Circular Economy Monday Champion Partner for the past five years! Thank you, The Beer Store, for your support as we have continued to build and expand the campaign reaching more Canadians each year! [Learn how The Beer Store has been creating circular economies for 94 years.](#)

Circular Economy: Beyond Recycling

The circular economy goes far beyond finding a recycling solution at end-of-life. Circularity incorporates better design that consumes less raw material during production, maximizes value during use, and improves products and services that are intended to eliminate wastes.

How can all Canadian advance our circular economy? Purchase smartly designed products meant to be reused, refurbished, and dismantled. Support companies that will lease or rent their products and offer to take them back for recycling after use.

We need to move away from our current linear model of consumption and production, which takes resources, makes products, and disposes of products and packaging in landfill.

Would you like to learn more about the Circular Economy and how it differs from recycling? **Check out our newly developed video below.**

How to Get Involved in Waste Reduction Week

Proclaim

It's not too late to proclaim this week as Waste Reduction Week in Canada in your organization, community, or school. Register your proclamation at WRWCanada.com/proclaim.

Register an Event

Organizing an event for this week? Don't forget to register it [online!](#)

Share

Join the conversation on social media using the program hashtag [#WasteReductionWeek](#). Share new ideas, tips, stories, and pictures of waste reduction and circular economy in action.

Light a local landmark

More than 20 landmarks are currently lighting up blue and green this week in celebration of the campaign. Is your community lighting up a local landmark or building? [Let us know!](#)

Learn

Visit our resources for each Waste Reduction Week theme day.

Take the Food Waste Pledge

Commit and improve meal planning, and make sure nothing is left to waste on our plates or in our fridges. You can take the Food Waste Pledge as an individual, school, business/organization, household, or community.

2021 Partners

Thank you to our partners for supporting the 20th anniversary of Waste Reduction Week in Canada!

Provincial & Territorial Partners

[Waste Reduction Week in Canada](#) is led by Circular Innovation Council with support from a coalition of not-for-profit environmental groups and governments from each of the [13 provincial and territorial jurisdictions across Canada](#).

[Circular Innovation Council](#) – originally established as [Recycling Council of Ontario](#) in 1978 – believes that shifting production and consumption in a circular economy simultaneously supports environmental, economic, and

social objectives of sustainable living. We are inclusive and collaborative among supply and value chains, and seek to advance business models, products, and services that can deliver on the values and benefits of a circular economy. Through better resource efficiency – reuse, share, repair, refurbish, remanufacture, recover in a closed-loop system – we can reduce waste, pollution, and carbon emissions. In doing so, we showcase innovation by putting circular economy concepts into action.
