

East side heritage stone wall temporary dismantling

As the team continues building out the Third Crossing and related infrastructure, part of the heritage stone wall on the Pittsburgh Library site will temporarily be dismantled. This work, which has been previously approved by Kingston City Council and the Heritage Committee, is being done to accommodate roadwork related to the bridge and active transportation elements.

Approximately 16 metres of the total 40 metres will first be carefully dismantled and then rebuilt on a connecting right angle to the current stone wall formation once all roadwork and related active transportation elements are complete. Thank you for your continued patience as we complete this work.

For any further questions about the heritage stone wall, please email the Third Crossing team at thirdcrossing@cityofkingston.ca
