## Latest near-neighbour presentations available now

Thank you to everyone who attended our recent near-neighbour meetings on February 11 (west approach) and March 5 (east approach) to hear the latest information about the project. We appreciate you taking the time to continue the conversation with us. These touch points are incredibly valuable for the project team and we look forward to your questions and comments as we get closer to the start of construction.

If you were unable to attend one of those meetings but want to know what we talked about please visit our project site and [view the presentations](#), which are posted on our website now.

Have a great weekend,

Third Crossing Project Team

### What's Next

#### Environmental considerations of the project

For the Third Crossing, it is necessary to satisfy the federal regulatory environmental requirements, along with the provincial and municipal requirements, in planning and implementing the new bridge both on land and in

---

satisfy requirements related to a Detailed Impact Analysis (DIA). The project team is planning and anticipating public engagement on the DIA, a comprehensive report submitted by the City to Parks Canada, in the next few months. Opportunities for continued stakeholder and public input will be provided as soon as those dates become available.

---

### **About The Third Crossing Bridge**

Once completed, the new 1.2 km bridge will connect the east and west sides of Kingston over the Cataraqui River. The two-lane bridge will improve emergency services, increase active transportation through a multi-use pedestrian and bike pathway, create greater business connectivity and enhance the quality of life for the residents and visitors of Kingston. The bridge is jointly funded by the Government of Canada, the Province of Ontario and the City of Kingston.
